# LICEO SCIENTIFICO G. GALILEI

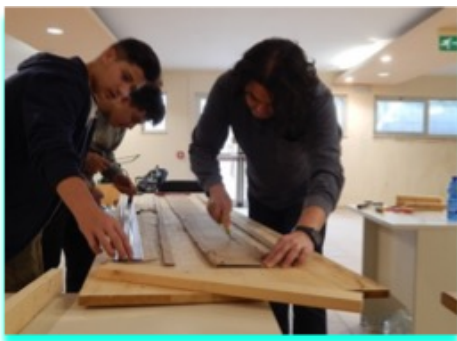

## INCLUSION PROJECT

- STUDENTS AND PARENTS' EXPERIENCES -

## MUSICAL THEATRE

The project contributed to a meaningful interaction between parents, teachers and pupils. The results obtained from the cooperation played important role and the results from this combination have been positive and successful.

- ✓ The parents supported in providing equipment, the students designed and created the sets
- ✓ This experience strengthened the relationship between students
- ✓ All the students who revealed some linguistic difficulties and lacking abilities were able to overcome and improve their skills

The school acts as a collection centre for mobile phones and is recognised by the **JANE GOODALL ITALY** organisation.

✓ Students designed, produced and distributed brochures, leaflets and posters from materials provided by the Jane Goodall Italy, using different digital tools.

✓ Parents and students handed over several mobile phones to the school for recycling.

# “KNOWLEDGE OF THE LAND” PROJECT

40 students from our school had the chance to analyse and re-drawn the architectural and structural aspects of the ancient “San Giovanni in Venere” abbey (13th Century).

The final activity consisted in a guided tour within the area to inform their parents, relatives, teachers and other visitors willing to visit and know more about the history of that place.

National festival dedicated to  
Italy's cultural heritage and  
landscape:  
**SPRING DAYS**

# Teaching and Learning Strategies

The guidelines to develop the project have been by using the 5 main methods.
